Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 March 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, drawn to An operation device having one or more encoders with substantially no defining structure for the operation device characterized entirely in abstract terms different from the characterization of claim 2.

Group II, claim(s) 2, drawn to An operation device having one or more encoders with substantially no defining structure for the operation device characterized entirely in abstract terms different from the characterization of claim 1.

Group III, claim(s) 3 and 9-14, drawn to A non-statutory operation device design method defined entirely in terms of abstract mathematical steps different from the abstract mathematical steps of claim 4.

Group IV, claim(s) 4 and 9-14, drawn to A non-statutory operation device design method defined entirely in terms of abstract mathematical steps different from the abstract mathematical steps of claim 3.

Group V, claim(s) 5 and 8, drawn to A non-statutory logic function design method defined entirely in terms of abstract mathematical steps different from the abstract mathematical steps of claims 6 and 7.

Group VI, claim(s) 6 and 8, drawn to A non-statutory logic function design method defined entirely in terms of abstract mathematical steps different from the abstract mathematical steps of claims 5 and 7.

Group VII, claim(s) 7 and 8, drawn to A non-statutory logic function design method defined entirely in terms of abstract mathematical steps different from the abstract mathematical steps of claims 5 and 6.

The inventions listed as Groups I to VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims are directed to different statutory and non-statutory categories of invention and within the distinct statutory and non-statutory categories of invention included are inventions comprising distinct technical features corresponding to particular code constraints that distinguish the inventions within the different statutory and non-statutory categories of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph D. Torres whose telephone number is (571) 272-3829. The examiner can normally be reached on M-F 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Scott T. Baderman can be reached on (571) 272-3644. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
